Mine Workers Appoint Special Committee to Study Mines Act

Classification of Miners Into "A" and "B" Sections Raises Protest of Delegates in Session at Calgary

Report of Investigation Expected Towards Conclusion of Wage Conference—Agreements Under Review.

Appointment of a committee to consider fully the proposed regulations of the provincial government for control of mining in Alberta featured the opening session of the Mine Workers Union of Canada convention in the Oddfellows' Temple yesterday.

The committee was appointed "to deal with the draft amendments and suggestions in connection with the Coal Mines Regulations Act," which is being brought forward at the present session of the legislature. Members of the committee appointed were:

A. Pruett, Nordberg; S. Patterson, Blaimore; J. Dornan, Corbin; H. R. Bakhouse, Coalhurst; J. H. Lowe, Lethbridge; W. Manning, Saunders Creek; W. Fyfe, Wayne; P. Barelay, Cammore; J. G. Michayluk, Luscar; M. Kiuen, Foothills; H. Williams, Nordberg; F. Ponce, Lethbridge, and H. Anderson, Standard Mines.

It is not expected that consideration of the new mines act will occupy the attention of the delegates until toward the end of the convention.

The delegates have draft copies of the act before them and consideration of the proposed legislation is expected to evoke considerable discussion.

The conference was specially called to consider wage agreements between the union and mine operators of the province and will continue for four days. The agreements under consideration are due to expire March 31.

Other than the appointment of the mines act committee, business of the opening session was of a routine nature. Frank Wheatley, president, is presiding at all sessions.

Two other committees appointed were: Scale Committee: J. Brooks, Bellevue; D. Gillespie, Coleman; J. Sloan, Lethbridge; J. Pontorola, Coalhurst; M. Carmichael, Cammore; C. Johnson, Nordberg; Al Leivers, Wayne; H. Chama, Mile 32; S. Vining, Luscar; T. France, Nordberg; R. Saunders, Federal.

Credentia Committee: H. Williams, Nordberg, chairman; W. Holly, Coleman; F. Ponce, Lethbridge, and R. Saunders, Federal.

Miners Arrested on Serious Charge in West Coleman Alberta Health Mouth Clinics

Midnight Assault With Knives Results in Two Men Being Held on Serious Charge.

Hearing of a charge of inflicting grievous bodily harm occupied all of Saturday afternoon in the police court, before Magistrate Gresham.

From the evidence it appears that a brutal assault was made at West Coleman by Bernard Zeistman, aged about 25 years, single, on Andrew Pcion, of about the same age. It is alleged that Zeistman with a companion went to the house where complainant lives and at about 12:25 a.m. of Feb. 5th committed the assault complained of, in which knives were used, one being over a foot in length. The complainant, who gave evidence in court, showed scars on his face and wrists, besides bruises and blackened eyes. He also received chest injuries, which necessitated medical attention.

A. B. Gillis, of Blaimore, defended the accused, and the hearing was adjourned till Saturday next at 10 a.m. Evidence was given through an interpreter, S. Janostak being engaged for the purpose. The prosecution was conducted by Constable Taylor of the provincial police.

Zeistman was allowed bail on his own surety and another for \$500 each, and Frank Tarabula, apprehended in connection with the charge, was also allowed on bail for the same amount.

The case created great interest among the population of West Coleman. The men concerned, it is reported, are miners.

OUT WENT THE LIGHTS

On Sunday evening at 6:20 the light circuit serving Fourth street and part of Fifth street suddenly went out of commission. Service in the Anglican church was cancelled, and the lights were not in commission for the balance of the night. Officials of the Light & Water Co. were notified immediately it was discovered that the service was out of commission. Service was resumed at 8:30 a.m. Monday.

A CARD OF THANKS

Mrs. J. Clark and sons desire to thank Bill Kusak, Frank Kilgannon, Gordon Milley, and M. Kormer for their attendance at nights on Mr. Clarke during his serious illness. We feel we do not know how to express our appreciation sufficiently for their kindness, and also wish to thank all enquiring friends.

Mr. Clarke, though still in hospital at the early part of the week, is reported to be making steady progress, and his friends hope for his complete recovery as early as possible.

Card of Thanks

I take this opportunity of expressing thanks to those who voted for me in the election of School Trustees, and assure them that I will endeavor to fill the duties of the office to the best interests of the ratepayers and with the view of efficiency and economy in operation of the schools.

Yours faithfully, S. MOORES.

Card of Thanks

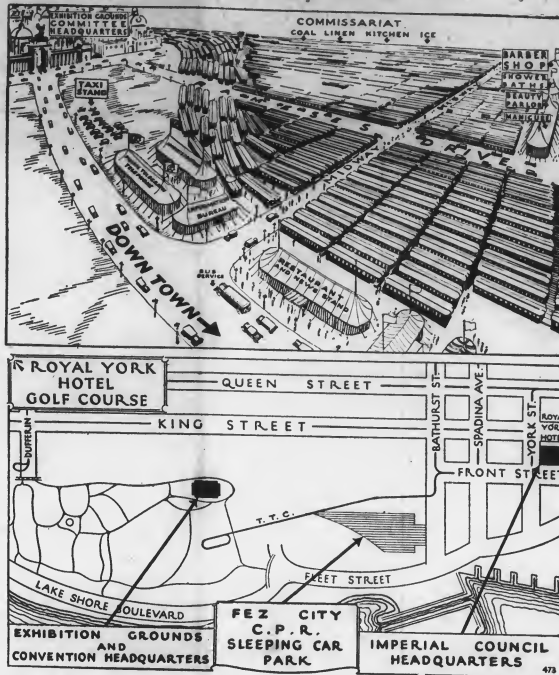

On my re-election to the Board of Trustees of Coleman School District, I desire to express my appreciation for the support extended me. It is especially gratifying in view of the fact that certain innovations were put into force during the past year, and the result indicates that the policy of last year's board meets with the approval of the majority. Again, thank you, I am,

Yours faithfully, HERB. SNOWDON.

A. E. Whitman was a visitor to Calgary over the week-end.

The C.P.R. depot on Monday night was the scene of an exciting incident. Just as the eastbound train arrived three women became engaged in an altercation that developed into a fight.

Canadian Pacific Builds City

Ready and fully equipped to house a population of 8,000, "Fez City" is now being built by the Canadian Pacific Railway for the accommodation of the army of Shriners who will make Toronto their Mecca next June. Mainly, the city will be composed of sleeping cars, three hundred of which will be placed in the city. The city will be brilliantly illuminated by electric light.

Publicity Plans Complete for Red Trail

C. J. Tompkins Represented Blaimore at Lethbridge Meet—Coleman will Co-operate in Issuing Map.

C. J. Tompkins of Blaimore represented Coleman at the meeting of representatives of Boards of Trade in Southern Alberta to discuss publicity plans for the tourist trade for 1930. He reported to the Coleman Board of Trade executive that a map and illustrations similar to last year would be issued, with the addition of Coutts and Taber taking pages, and a panoramic cut of Waterton Lakes added.

The cost will be divided among the centres from Lethbridge to Fernie and towns east of Lethbridge. Coleman's share it is expected will be slightly higher than last year, but the

LADIES' GUILD ORGANIZED

The ladies of St. Alban's church recently organized a guild to take the place of the Women's Auxiliary. Meetings have been held at the home of Mrs. Halliwell and Mrs. George Hope and the next meeting will be held at the home of Mrs. Corbett. The officers of the Guild are Mrs. Rushton, president; Mrs. Clifford, vice-president; Mrs. Hancock, secretary; Mrs. A. J. Morris, treasurer. Quite a number of ladies have associated themselves with the newly-organized guild.

The first of a series of Bridge parties by St. Alban's Ladies Guild was held last Wednesday evening at the home of Mrs. Hope. Seven tables were in play, and the prizes were won by Mrs. Richards, Miss Hole and consolation by Mrs. Patterson. The next will be held at the home of Mrs. Halliwell.

amount has not yet been apportioned. The map proved a very effective advertising medium and the Crow route received a great deal of publicity, as was evidenced by the letters received and requests for more maps from important cities in the States.

Canadian Legion Organizer Coming to Coleman

Capt. Geo. L. Hudson Will Address Meeting Here on February 26th

All members of the Canadian Legion, B.E.S.L. and ex-service men who are not members, are invited to attend a meeting to be held for the purpose of re-organizing the local branch of the Canadian Legion on Wednesday, Feb. 26th. The place of meeting will be announced in next week's issue of The Journal. Capt. R. F. Barnes received a letter from Capt. Hudson stating his intention to visit the members here on the above date.

ST. ALBAN'S CHURCH

Service on Sun. Feb. 16—Matins at 11:15 a.m. Choir practice at 7 p.m. Fri. Feb. 14.

School Trustees Election Result

Moore and Snowdon Elected—One-Fifth of Vote Polled by Ladies—Many Did Not Vote.

RESULT OF POLL

Moore	214
Snowdon	138
Dickson	94
Fraser	88
Lees	56
Ballots spoiled	4
Total Ballots	299
Number of male voters	238
Number of women voters	61

With five candidates in the field for two vacancies, a much heavier vote was contemplated in the election contest. Of the five, Herb Snowdon was the only one of the 1929 school board whose terms had expired who sought re-election.

The old members of the board whose terms have another year to run are J. M. Allan, Geo. Hope and J. Glendinning. Mr. Snowdon was appointed chairman after T. Johnson left for the west last year.

None of the five candidates for Monday's contest had given any public expression of policy, though it is understood that the public were desirous of candidates being returned who were favorable to the policy of the board of the past year. The re-election of H. Snowdon is therefore taken as an endorsement of that policy.

The polling was in charge of James Ford, secretary of the town, and Chief Houghton, and there were no untoward incidents to mark the day's polling, which closed at 7 p.m., when the votes were counted by the scrutineers as read out by the returning officer.

The result was in line with general expectations. It was soon made known around town, and the successful candidates received the congratulations of their supporters.

As there is an approximate total of 1000 eligible to vote the poll indicates that barely one-third exercised their privilege.

The first vote cast at 10 a.m. on the opening of the poll was the Editor of The Journal, who strolling over to the town hall to find if there was any excitement, was told by Returning Officer Ford that he was just in time, so taking a ballot and pencil, he promptly marked it and marched out with the feeling that he had discharged his duty. The final vote was polled at 7 p.m. by James Lowe.

During the afternoon there was for a time quite an air of activity around the polling booth. Frank Birmingham was driving ladies to the town hall while others were walking over the ice-covered streets, giving the observant reporter the impression that here at least women were going to make it clear that they intended to exercise their franchise. It was therefore disappointing that when the final results were declared, that not more women were recorded among the voters.

Down town Mickey Hennessy was forecasting the result, and in a vein of sarcasm informed the gathering that the results would be broadcast as soon as known, which Ramsay Macdonald would doubtless be very pleased to hear.

The candidates were not very much in evidence during the day. The reporter saw Sam Moores once, and Win. Fraser was on the corner speculating within himself as to the result, while Herb Snowdon was seen quite frequently keeping an eye out for the odd vote and letting people know that he at least was sufficiently alive to do a little mild campaigning.

The campaign was conducted without any personalities. The supporters of the candidates gathered in the votes as much as possible, but the result gives the winning candidates a sufficient margin to indicate the wishes of the majority.

Geo. Duffield has been appointed secretary of the Coleman Miners hospital board. J. Hadley is president. Mr. Duffield states that the privilege is still open for town residents other than miners to take advantage of the plan whereby they may receive hospital accommodation on payment of \$4.50 each three months in advance.

"ILLUSION"

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an almost effective, yet harmless it has been the standard antidote for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain disappears. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

The Immigration Problem

The subject of immigration, which is at present receiving a large share of attention by the people of Canada, and causing them no little concern, has always been in the forefront of national policy. It is likely to remain so for many years to come, a result almost inevitable in the case of a young country of small population, vast unoccupied areas, and immense natural resources awaiting development. And especially so when, elsewhere in the world, there are numerous countries where population is already congested and the surplus people are anxiously looking abroad for some place in which to locate with a fair prospect of making a livelihood for themselves and their children.

It is probably true that in regard to no other question of vital national importance has public opinion in Canada, as in the United States, so completely changed within a few years as it has in regard to immigration. Within the last few years the change has been rapid and fundamental, and thousands of men and women today hold views diametrically opposite to those they entertained five or ten years ago. Many of these people are now inclined to blame former Governments because they adopted and pursued policies which do not meet the needs of the country, and they themselves believed in and approved policies then which they condemn now.

Not so long ago Federal Governments were applauded or criticized according as they succeeded or failed to increase the volume of immigration into this Dominion. Almost without a dissenting voice, organized labor alone perhaps excepted, the people of Canada urged and demanded aggressive policies of immigration in order to increase Canada's population, develop its resources, and assist in carrying the Dominion's heavy burden of debt. Immigration was held to be necessary to provide business for our railways, and to reduce the per capita cost of government, schools, and those many other modern services which people demanded. And all governments tried to supply what the people as a whole wanted.

Now all this has changed, and from all parts of the country there is an insistent demand that immigration be restricted, if not altogether stopped, and that there were extremists in days gone by who favored a wide-open door policy of unrestricted entry, so now there are extremists who would prohibit all and sundry from entering the portals of the Dominion. As is true of almost every question, there is in this matter of immigration a sane and safe middle course.

Generally speaking, the opinion now prevails that all forms of assisted immigration should cease, or at all events should be strictly limited to individual cases of members of a family desiring to come to Canada to join relatives already established here. The view is also held that there should be no more large movements of groups of people to be settled in colonies. It is practically assured that these policies will be adhered to.

Canada's immigration policy has for some considerable time been one of admitting only those, mentally, morally and physically sound, who proposed to go upon the land, while those of the artisan and unskilled labor classes were discouraged. But the difficulty has been to keep those admitted on the land. Many having but little capital and meeting with initial discouragements and difficulties, have flocked to the cities in search of work, with dire results to themselves and to the urban communities thereby affected. How to overcome this problem, made more acute in recent years by the introduction on a large scale of labor-saving farm machines, as for example, the combined harvester-thresher and the motor truck, and the consequent elimination of the need for thousands of farm hands, is still in acute question.

It is now suggested that immigration should be left to the Provinces rather than continue as one of the major functions of the Federal Government, and that each Province should decide who, and how many, to admit in any one year. But here another difficulty presents itself. Provincial requirements and policies may be far from uniform. One Province may adopt a policy amounting almost to exclusion, while another is much more lax in its policy governing immigration. But once an immigrant is admitted into Canada by any one Province, there is no power to prevent such immigrant from moving to another part of the Dominion. There must of necessity be some understanding reached by the Provinces if any effective restrictions are to be imposed by them, if the present plan of a central Dominion control is superseded.

The whole problem is one calling for the most careful investigation and study. It involves not only economic questions, but social, racial, religious, and other questions, each and every one presenting difficulties in the way of arriving at common understandings. It is a question that calls for the exercise of patience, goodwill, co-operation.

Canada's Natural Resources

Value Of Agriculture Products Increases Fourfold In Last Twenty Years

In address upon "Canada's Natural Resources and Their Development," in Montreal the other day, G. M. Hutt, development engineer, Canadian Pacific Railway, pointed out that the value of agricultural products have increased fourfold in the last twenty years, while that of mines and forests have been trebled, fisheries developed and developed water power increased six times over.

W. N. U. 1824

Calgary Woollen Plant

New Plant For Manufacture Of Woollen Goods Is Announced

Plans announced by W. L. Caldwell & Co., provide for the erection of a new plant in Calgary at an approximate cost of \$40,000, for the manufacture of woollen goods. This is expected to double the capacity of the present plant, which is now using the equivalent of 15,000 fleeces annually. It is thought likely that a second section of the same size will be added later.

Ontario Gold Mines

The output from the gold mines of Ontario for the month of December last, at \$35,353,169, showed a gain of \$485,692 compared with November. The figures are from the Department of Mines.

Sweet and palatable. Mother Graves' Worm Extirpator is acceptable to children, and it does its work surely and promptly.

They may be dumb, but a rabbit never marries a widow, and a crow never ruins its health digging worms for a bird of paradise.

Adds To Consumer's Bills

Milk Dealers Lose Millions Annually Through Unreturned Bottles

Do you use milk bottles for jam, kerosene, paint, and other household articles? Perhaps you use them for flower vases, or in numerous other ways. If they get too dirty, probably they are thrown out with the ashes or trash.

Such a procedure is far too common, says the Bureau of Dairy Industry, United States Department of Agriculture, and adds materially to the consumer's milk bill. The annual milk-bottle bill of the nation is close to \$30,000,000, the bureau says, and at least \$20,000,000 of this is lost occurring after the bottles leave the dairy. Last year in one large city, junk men picked off the city dumps 20,000,000 milk bottles which had been thrown away. These bottles had a value of over \$1,000,000.

SWOLLEN JOINTS GIVE GREAT PAIN

The Trouble Can Be Removed By Enriching the Blood Supply

The chief symptom of rheumatism is pain. Cold or damp weather may start the pain, but it is known that the trouble is actually due to weak, watery blood. The most successful treatment is the one that restores the blood to a healthy, normal condition. Many rheumatic people suffer pains that could be avoided if they would only enrich and purify their blood by taking Dr. Williams' Pink Pills. These pills actually make new, rich, red blood, and drive out the poisonous secretions which cause rheumatism. This is shown by the statement of Mr. A. O. McKim, M.D., who says: "About two years ago I had a very severe attack of rheumatism. The trouble located chiefly in my hips and legs. The joints swelling so badly that often I would have to sit up in a chair, being unable to lie down. The pain, at times, was agonizing. Finally I decided to try Dr. Williams' Pink Pills and these I found, to my great satisfaction, just the thing needed to relieve me of the misery I was undergoing. The use of the pills the swelling subsided, the pain disappeared, and there has not since been any return of the trouble. I am very thankful for what Dr. Williams' Pink Pills did for me, and hope some other sufferer may benefit from my experience."

You can procure these pills from any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

B.C. Telephones

Improvement and Extension Of Service Is Noted

Within two months by the use of a new B.C. telephone cable route, Vancouver and Victoria will be connected by an additional 35 speech channels. Two direct telephone services will be in operation between Vancouver and Calgary this spring. Before the end of the year the whole of British Columbia lying to the south of the C.P.R. main line will be linked with high grade telephone communication, extending from the Crow's Nest to Vancouver and Victoria.

There may be other corn removers, but you will not be completely satisfied until you have used Holloway's Corn Remover.

Indian Population Increases

The Indian population of Canada has increased by 3,118 during the last five years, according to the five-year census of the Department of Indian Affairs. At the end of 1929 the population stood at 108,012.

Use Minard's For Neuralgia.

B.C. Farm Production

Value of farm production in British Columbia totalled \$61,000,000 in 1929, a new high record. This was an increase of \$5,000,000 over 1928.

MOTHER OF TWINS HELPED

Restored to Health by Taking Lydia E. Pinkham's Vegetable Compound

Mitchell, Ont.—"I had little twin babies and for quite a while after I was so weak I could not do my work because of pains all the way up my legs at the back. I also had headaches and got very little sleep. I took Lydia E. Pinkham's Vegetable Compound, and soon I was able to get up and do my work. I have taken three bottles and I am fine, do my work without trouble and am gaining in weight and strength. I will gladly recommend the Vegetable Compound to anyone." Mrs. F. STATION, Box 220, Mitchell, Ont.

Relief for Colds

Author Urges Wider Knowledge Of Canada

American Novelist Regrets Peculiar Ideas People In The United States Have

Returning from a visit to Churchill on Hudson Bay, the northern terminus of the Hudson Bay Railway, Courtney Riley Cooper, American novelist, in an interview at Toronto, urged a wider knowledge of Canada in the United States. Mr. Cooper regretted that so many peculiar impressions of Canada had become prevalent.

"The people of the United States are under the impression that Canada is a land of barren, desolate, frozen wastes," he said, adding that when he was a reporter on a Chicago paper he suffered more from the cold than in the Hudson Bay country.

"I became sold on Canada and decided to make my life work the selling of Canada to the U.S. people through my books," he went on.

He highly commended the Canadian people, he said, "The Canadian and U.S. citizen are blood brothers."

Caramel Pudding

A Delicious Dessert That Practically Makes Itself

One of the most delicious desserts one can serve, and it is one especially loved by children, can be so practically made itself. It is called Caramel Pudding. Here it is:

"Place an uncupped can of Borden's Eagle Brand Condensed Milk in a kettle of boiling water and simmer for two and a half hours, being careful not to let the kettle boil dry. Remove can, cool and chill. Remove top of can, cut, along the side of can — not the top — so that the contents may be removed whole; place on a serving dish and garnish with broken nut meats, and whipped cream — or use plain unsweetened cream, with or without garnish."

Miller's Worm Powders will purge the stomach and intestines of worms so effectively and so easily and painlessly to make itself. It is called Miller's Worm Powders. Here it is: "Place an uncupped can of Borden's Eagle Brand Condensed Milk in a kettle of boiling water and simmer for two and a half hours, being careful not to let the kettle boil dry. Remove can, cool and chill. Remove top of can, cut, along the side of can — not the top — so that the contents may be removed whole; place on a serving dish and garnish with broken nut meats, and whipped cream — or use plain unsweetened cream, with or without garnish."

Heirs To Vast Estate

Nine Widows and Thirteen Children Share In Estate Of Abdul Hamid

A London despatch to the New York Times states that nine surviving widows and 13 children of Abdul Hamid, Sultan of Turkey, who was deposed in 1909, have obtained their five years legal battle \$50,000,000 from his \$1,500,000,000 estate.

Greece, it was reported in London, offered \$50,000,000 to Abdul's former harem favorites now living in poverty in various capitals of Europe. The Aegean Financial Trust, Ltd., of London, hopes to get for them \$1,000,000,000 from Iraq.

Abdul, who died in prison in 1918, was said by some to be the richest man in various capitals of Europe. The Aegean Financial Trust, Ltd., of London, hopes to get for them \$1,000,000,000 from Iraq. Abdul, who died in prison in 1918, was said by some to be the richest man in various capitals of Europe. The Aegean Financial Trust, Ltd., of London, hopes to get for them \$1,000,000,000 from Iraq.

Product Of One Seed

Nine ounces of dried seed and 1,278 blooms from one nasturtium seed, is the proud record of Gordon Thomas, Royton, B.C. Mr. Thomas saved the seed from plants grown in his own garden in 1928, and on March 10, 1929, it was planted in a favorable location on the south side of his house. The plant was given special attention and bloomed continuously until November 11, and grew to a height of 14 feet 4 inches.

The revised version of "Uncle Tom's Cabin," according to Clyde D. More, of the Ohio State Journal, probably will have Eliza crossing the river on an electric refrigerator.

Grandmother Know — She Used Minard's.

Glass That Bends

Nearest Approach Is a Glass Substitute Called "Windolite"

There is a fortune awaiting the man who invents a flexible glass. This stands perhaps at the head of the list of necessary things the world is waiting for. So far the nearest approach is a glass substitute called "Windolite," invented in England, and put on the market there in 1917, and now sold in Canada. "Windolite" consists of a cellulose acetate compound reinforced with fine, specially galvanized wire mesh. It is so dipped in the solution as to coat the wire mesh thoroughly on both sides and the resulting substance is therefore completely waterproof, airtight, flexible and practically unbreakable.

One advantage this substitute has over ordinary glass is that it freely transmits the valuable ultra-violet rays of the sun. This quality makes "Windolite" invaluable for a wide variety of uses where real sunlight is necessary to health and growth such as the rearing of young chicks and turkeys in confinement. Ordinary glass shuts out these rays, and yet they are vitally important to human beings, as well as plants, poultry and live stock. Another surprising fact about this glass substitute is that it is cheaper than ordinary glass, and yet extremely light in weight and very strong.

Freedom From Asthma. Asthma is one of the most distressing troubles, sudden in its attacks and prolonged in its agonies. Frequently many things are tried, but nothing seems to give hope of relief. Dr. J. D. Kellogg's Asthma Remedy is the help which can be depended upon. If you have tried other remedies without success, do not fail to get at once a package of this uniformly successful preparation.

Old Marriage Contract

Drawn Up By Egyptian Husband and Dated 590 B.C.

Marriage contracts were in vogue among early Egyptians, according to tablets found in the Nile region by explorers. The earliest known nuptial contract dates from 590 B.C., the terms of which were drawn by the husband. It has been translated as follows: "Since God willeth that we should unite one with the other in righteous wedlock, after the manner of every free man and every wise woman, therefore I have given you four dollars in gold as a bridal gift. And for my part I will not neglect thee. Neither shall I put thee forth without a cause, having regard to the law. But should I wish to put thee forth, I will pay 17 dollars for the matter."

Minard's—The Great White Liniment.

Measuring Star's Brightness

With a photo-electric photometer such as the one attached to the telescope at the Dominion Observatory, Ottawa, it is possible to measure the brightness of a star to within one half of one per cent of its value. This instrument is used mainly for following the changes in the brightness of variable stars.

Needless Pain!

Some folks take pain for granted. They let a cold "run its course."

They wait for their headaches to "wear off." If suffering from neuralgia or from neuritis, they rely on feeling better in the morning.

Meantime, they suffer unnecessary pain. Unnecessary, because there is an antidote. Aspirin tablets always offer immediate relief from various aches and pains we once had to endure. If pain persists, consult your doctor as to its cause.

Save yourself a lot of pain and discomfort through the many proven uses of Aspirin. Aspirin is safe. Always the same. All drug stores with complete directions.

ASPIRIN TRADE MARK BAYER

DECLARES NEXT 50 YEARS BELONG TO THIS DOMINION

Washington, D.C.—"I think the next 50 years belong to Canada," said Sir Esme Howard.

The British ambassador, soon to retire, returned from his farewell visit to the Dominion obviously refreshed and invigorated and full of admiration.

"It was delightful to visit your country again and renew old acquaintanceship," he said.

Discussing the economic future of Canada, Sir Esme remarked that unlike less fortunate countries the Dominion's eggs were not all in one basket. He foresaw the industrialization of the country with the development of hydro electric power sources, "in which you are wealthier than any other land. There would be an advance in industry with the use of vast and varied resources and proportionate and necessary increase in agricultural production.

Expressing a particular interest in the opening up of Hudson Bay, Sir Esme said he wished he had been able to visit that part of the country as well as the Cobalt District.

With obvious pride the ambassador then spoke of the Dominion's nationhood, and said he had noted with a thrill of interest the national spirit of the Canadians which, inherently British, ever grew and strengthened. He observed also the breadth of the Canadian outlook reflected in the press where prominence was given to world and imperial affairs.

Opening Of the Saskatchewan Legislature

Customary Ceremony Marked Session

Held On February Sixth

Regina.—With customary ceremony the Saskatchewan Legislature went into session at 3 p.m. February 6. For the first time since the province was formed in 1905, the government side of the House was occupied by other than Liberals. Entrance of Premier J. T. M. Anderson was the signal for a display of enthusiasm.

J. G. Gardiner, Liberal leader and former Premier, was also accorded a rousing reception. The galleries were packed long before the opening hour. Proposed legislation by the Anderson government was outlined in the speech from the throne read by Lieutenant-Governor H. W. Newlands. The speech made reference to the natural resources, expressing confidence in the near future of the province he called upon to administer these resources in the best interests of our people."

Old Age Pensions

34,450 Persons Now Receiving Government Pensions In Canada

Ottawa.—There were 34,450 persons in Canada receiving old age pensions on December 31, 1929, according to department of labor figures issued recently.

It was pointed out that these pensioners do not include aged persons from the provinces of Quebec, Nova Scotia, New Brunswick and Prince Edward Island, which have not yet adopted the old age pens on scheme.

Ontario leads in number of pensioners with 19,500. Manitoba is next with 4,891; British Columbia has 4,407; Saskatchewan, 4,335 and Alberta, 1,517.

Elected By Acclamation

Hon. T. A. Crerar Will Represent Brandon In House Of Commons

Brandon, Man.—Hon. T. A. Crerar, Minister of Railways and Canals in the Federal Cabinet, has been elected by acclamation as member for Brandon in the House of Commons.

Mr. Crerar, formerly president of the United Grain Growers, Limited, succeeds Hon. Robert Forke as member for Brandon.

Mr. Forke retired from the House and was appointed to the Senate.

Recommended For Parole

Washington, D.C.—Dr. Frederick A. Cook, Arctic explorer, serving a 15-year sentence at Leavenworth federal penitentiary has been recommended for parole by the federal parole board.

Have Given Up Search

Moscow.—The Arctic commission of the Soviet Government has abandoned all further search for Carl B. Eileson and his companion, Earl Borland, in the belief that the two armen perished in Siberia.

W. N. U. 1824

Attempted Assassination

New President Of Mexico Is Wounded In The Jaw

Mexico City.—Pascual Ortiz Rubio, new President of Mexico, was wounded in the jaw by a would-be assassin who fired on him a few hours after he had been sworn in as chief executive.

It was announced at the hospital that the president's condition was not serious. The bullet was removed.

Six shots were fired. Two other members of the president's party were struck by a bullet and his little niece, Opelia Ortega, sustained a slight wound. A bystander was also hit.

The assailant was arrested. Broken glass from the automobile windshield showered the rest of the party which included a chauffeur, the president's secretary and the president's sister-in-law, Senora Ortega, whose daughter was hurt.

Motor cycle police pounced upon the shooter and took him into the national palace. The prisoner gave his name as Miguel Flores, aged 22. He acknowledged that he was an adherent of Jose Vasconcelos, candidate of the anti-revolutionist party who was defeated by Ortiz Rubio for the presidency.

Proposed Branch Lines

C.P.R. Will Have Five Bills Before Parliament At Next Session

Ottawa.—The Canadian Pacific Railway will have five bills for branch lines before parliament this session. The bills provide for the construction of approximately 160 miles of lines distributed among three provinces—Alberta, Saskatchewan, and Quebec. These are as follows:

From a point on the Taber subdivision of the C.P.R. near Tempest, Alberta, southwest for approximately ten miles.

From Denham, Saskatchewan, on the Swift Current southeasterly branch of the C.P.R. southwesterly for a distance of about 50 miles.

From Duval, Sask., on the Pheasant Hills branch easterly for a distance of some 30 miles.

From a point in townships 46 or 47 east of Glenrose, Sask., in an easterly direction to Shellbrook.

The fifth line is a short one in the parish of Le Perrot, Vaudreuil County, Quebec.

The bills will ask for authority to issue securities in respect to these lines to an amount not exceeding \$50,000 a mile.

Manitoba Telephones

Government May Spend About Six Million Dollars On System Expansion

Winnipeg.—Plans for capital expenditure of about six million dollars in providing a 10-storkey office building and a great system expansion during the next three years by the Manitoba Telephone System were contained in the annual report of the system submitted to the legislature by Hon. W. J. Major, attorney-general and minister of telephones.

Proposed extensions include installation of the service into the mining districts of northern Manitoba, where already a great part of the work has been completed.

An accumulated deficit of over \$884,000 in 1921 had been entirely wiped out, according to the report, and in its place there was a surplus of \$155,325. Total revenue for 1929 was given at \$3,840,764.99 and net earnings \$281,199.56.

Will Move Reply

Member For West Lambton To Move Reply To Speech From Throne At Ottawa

Ottawa.—It was announced from the office of the prime minister that the motion for an address in reply to the speech from the Throne, at the opening of the Dominion Parliament, will be moved by Ross W. Gray, Liberal member for West Lambton. The second mover will be Vincent Dupuis, Liberal member for Laprairie-Naperville.

Both the mover and seconder are comparatively new members of the House of Commons. Mr. Gray, who succeeded W. T. Goodson, as representative for West Lambton, sat in the House last session. Mr. Dupuis is the successor to the late Roch Lacombe, and will take his seat for the first time at the coming session.

Radio Broadcasting Bill

Ottawa, Ont.—The bill on radio broadcasting which will be presented to Parliament will follow very closely the recommendations of the royal commission on broadcasting. Hon. P. J. Caudin, Minister of Marine and Fisheries, who has the bill in his charge, said that the bill was in accordance with the recommendations of the royal commission on broadcasting, confirmed this recently.

Receives Air Speed Trophy

Great Britain Becomes First Possessor Of This Award

Washington, D.C.—Sir Esme Howard, the British ambassador, received the L. S. Thompson trophy, a symbol of speed supremacy in the air, from Senator Hiram Bingham, of Connecticut, president of the National Aeronautic Association.

Great Britain became first possessor of the award through the great Leader A. H. Orville's feat of speed flying 357.723 miles an hour in last fall's Schneider cup race.

WILL ADVOCATE REDUCTION OF MILITARY FORCES

London, England.—An international disarmament conference dealing with land as well as sea forces, after the five-power conference has been completed, was predicted by Premier MacDonald.

The Prime Minister, replying to a question as to whether he would consider calling a conference of the great powers with a view to a reduction of military forces, pointed out that the disarmament problem, including land forces, had been under careful consideration by the League of Nations for some time.

He hoped that at the conclusion of the five-power conference a further meeting of the preparatory commission on disarmament will be held which will enable the next assembly of the league to arrange for summoning an international disarmament conference," he said.

Abolition of submarines will be favored by Great Britain at a public plenary session of the naval disarmament conference which will be held next week.

The highest authority stated that Great Britain, the United States, and Japan expected to reach a tentative agreement within a few days for reduction of capital or battleships contained in those countries' navies.

This source stated the U.S. had submitted definite proposals to Great Britain and Japan. While the details were withheld it was understood the proposed reductions would show the 5-3 battleship ratio established at the Washington conference. It was said, however, that the proposed compromise from the three nations would be only tentative, the United States contending that it was contingent upon the setting of the cruiser question.

The general problem of battleships is being negotiated now between the delegations of the three countries. The general attitude of the three delegations chiefs is said to be that there are prospects of readiest acceptance, although this far there is no agreement between any two.

The British capital ship total now stands at 20. The United States has 18 of the big ships and the Japanese ten. These limits were set by the Washington conference. Members of the French delegation expressed their approval of the proposed agreement and said they would be in accord with any such development.

NAVAL CONFERENCE OFFICIAL

Sir Maurice Hankey, who was elected secretary-treasurer of the naval conference in London, England.

Commissioner's Body

Cremated In England

Private Ceremony Attended By Hon. J. L. Ralston

London, England.—The body of Hon. P. C. Larkin, Canada's high commissioner in London, who died suddenly on Feb. 4, was cremated privately at Golders Green.

Col. the Hon. J. L. Ralston, Canadian Minister of National Defence, was one of the small group attending.

Eight years almost to the day from the date of Mr. Larkin's entrance to the high commissioner's office a memorial service was held at Christ Church, Lancaster Gate, adjoining the Larkin residence. The Bishop of Kensington conducted the service.

When Canada House was opened by His Majesty a few years ago, a new register for visitors was installed. The first entry reads: "Peter Larkin, Toronto," and in the column where the visitors record the probable length of their stay in London appears the word "indefinite" in Mr. Larkin's handwriting.

Want Embargo Lifted

Britain Anxious To Export Potatoes To Canada

London, England.—Potato growers in the British Isles, particularly in Ireland, are suffering from a market glut, while the price of potatoes is high in Canada, a deputation of members of parliament emphasized when they interviewed Rt. Hon. Noel Buxton, Minister of Agriculture. They asked the government to endeavor to lift the embargo against import of British potatoes to Canada.

Resigns As Liberal Leader

Edmonton.—As forecast by press rumors, Captain Joseph T. Shaw, provincial Liberal leader and provincial Liberal member for Bow Valley, on Wednesday afternoon in the legislature announced his resignation as leader of the provincial party. He will, however, continue as House leader of the party until the end of the present legislative session.

Heavy Mail Carried By Air

Figures For Last Year Show 455,163 Pounds Handled

Ottawa, Ont.—A total of 455,163 pounds of postal matter was flown over the various air-mail routes operated during 1929, according to figures compiled by the post office department. These figures, it is pointed out, may be amended in an upward direction when more complete information is available here.

From Sioux Lookout to Narrow Lake, in Northern Ontario, and return, the amount of mail carried was greater than that transported over any other single route. The postage over this route was 83,404. The Montreal-Rimouski route, operated for only seven months of the year, came second with 63,672 pounds. On the trip made from Edmonton to Alkavik, with stops at the Mackenzie River, the weight of mail carried was 16,770 pounds.

Figures show that the air mail is used most in out of the way places where far greater weights are carried than over the well established daily services in districts where the gain in time is not so significant.

NO CHANGE IN POLICY OF POOL IS EXPECTED

Winnipeg.—Shadow of falling wheat prices still hung ominously over the Winnipeg market, undisputed by prairie governments' declaration of financial support for the wheat pools. Meanwhile, thousands of western farmers awaited the end of a period of drastic price reductions characterized by pool officials as unwarranted by basic supply and demand conditions.

Resources of Manitoba, Saskatchewan and Alberta stood pledged as guarantees for the 15 per cent. margin demanded by Canada banks on loans to the co-operatives—but wheat values slipped downward more than a cent and a half per bushel.

On the cash market, No. 1 Northern was quoted at \$1.20 1/4, more than four cents below last year's figure—and the world crop this year is estimated at 533,000,000 bushels less than that of 1928—and 132,000,000 bushels less than the five-year average from 1924 to 1928.

Already \$1 per bushel has been paid out to members of the prairie Wheat Pools, and values had been generally regarded as approaching closer than before to the 15 per cent. protective margin above loans. It is pointed out, however, that the \$1 per bushel payment in no way can be considered the Pools' indebtedness to the banks. Under the Pools' financing system, bank loans are reduced automatically as sales are executed.

Had the western governments not come to the aid of the co-operative—and had the market been depressed to "substantially lower levels"—the Pools would have been forced to liquidate a part of their holdings on markets already depressed, according to a statement by George McIvor, general sales manager of the Canadian Wheat Pool. This, he points out, would have had disastrous consequences, not only to western farmers but to the business structure of the entire country.

"It was with a view of avoiding such a catastrophe in the event of a further drastic break in the market that the Pools requested and received immediately the support of the governments of Manitoba, Saskatchewan and Alberta," Mr. McIvor explained.

"The three provincial governments accordingly forwarded a letter to the chairman of the banks' lending committee, agreeing to guarantee their respective provincial Pools' share of the Canadian Pools' margin.

"Uncertainty arising out of the stock market crash and the probe brought to the investing public a loss of confidence which in turn depressed the Canadian grain markets during the past few weeks," Mr. McIvor mentioned.

"As a result of these conditions," he stated, "grain in volume out of all proportion to the present actual demand has been offered on our commodity markets, which has naturally brought about a drastic reduction in prices not warranted by basic supply and demand conditions."

No alteration in Pool policy will result from the governments' act according to Mr. McIvor. He emphasized that the Pool will make no attempt whatever to hold up wheat sales when there was a demand for the actual wheat, but would continue to offer wheat for sale whenever there was a demand from domestic mills or foreign buyers and would refrain from offering in the market at a demand or on depressed markets.

ACTION TAKEN ONLY TO SECURE A FAIR PRICE

Edmonton.—That the attitude of the Western wheat pools in holding the 1929 wheat crop from the market is greatly misunderstood both by Canadians, and in the Old Country, was the contention of Premier J. E. Brownlee, of Alberta, during his address in the Alberta legislature recently.

"The pools are not holding wheat with the object of forcing prices to unreasonable levels," Mr. Brownlee declared.

"They are merely refusing to dump their wheat on the market until the carryover from the previous year, and having in mind the effect that such an action would show.

"Argentina has been compelled to put its product on the market at the best price it could get. The pool had to do one of two things—either dump its wheat and see prices drop still lower, or hold back in order not to do serious injury to the Canadian growers.

"I cannot see anything wrong with that action, yet it is reported that it has resulted in great bitterness in England, and even the boycotting of Canada wheat, if press reports are accurate.

"Such a boycott is unfortunate, as Canadian wheat growers are merely endeavoring to secure a fair price for their product. If there is any way in which public men or governments can break down this misunderstanding, it should be done in the cause not only of Canada, but of the whole of the Empire."

Conference To Discuss Livestock Situation

Minister Of Agriculture Has Called Meeting For March

Ottawa.—The provincial governments will be invited to send representatives to a meeting here, the first of its kind, in March, when ways and means will be discussed to increase livestock production. The conference is being called by Hon. W. R. Motherwell, Minister of Agriculture, and it is expected he will have been sufficiently recovered from his recent illness to take some part in the sessions, although Dr. G. G. Gieseler, deputy minister of agriculture, will probably be chairman.

The fact that Canada's livestock production is not increasing as rapidly in many lines as the domestic consumption and consequently the supply available for export is decreasing is the reason the livestock representatives and representatives of other interests will be asked to sit in with the departmental officials.

Consulting With Provinces

Dominion Government Asks For Opinion On Unemployment Insurance

Ottawa, Ont.—The Dominion Government is consulting the provinces to ascertain whether or not they favor the establishment of some form of unemployment insurance. Hon. Peter Heenan, Minister of Labor, informed a deputation from the Confederation of Catholic Workers of Canada.

If the provinces signified that they were in favor of unemployment insurance, he would, said Mr. Heenan, be willing to "ask my colleagues to amend the British North America Act" in order to assist in its establishment.

Better Radio Reception

Decrease In Sun Spots Should Help the Radio Fan

Toronto, Ont.—Radio reception should improve during the next few months, according to the report of W. E. Harper, Victoria, retiring president of the Royal Astronomical Society of Canada, which was read at the annual "at home" of that organization here.

Mr. Harper based his assertion regarding radio reception on the fact that it is poorest when sun spots are brightest.

H. R. Kingston, London, was elected president of the society, and J. S. Plaskett, Victoria, was chosen honorary president.

May Educate Veterans' Children

Victoria.—Provincial government plans to assist the education of soldiers' dependent children provide for an expenditure of \$12,000 for this year and for the educational care of from seventy-five to one hundred students. Hon. Joshua H. Smith, Minister of Education, explained to the British Columbia legislature when the legislation was considered in committee.

Little Lady Digs Igloo

She has dug herself a snow cave just outside the Chateau Frontenac, and she expects to have the time of her life at the Winter Ice Pageant, Quebec City this month. Not that there will be anything there to compare with her own igloo—not even the Chateau Frontenac itself—in her opinion, and fancy skating, sled-jumping and joring, snow-shoeing, dog-mushing and all the varied winter sport amusements that Jack Strathdee, director of the Pageant, will invent, do not stack up one-two-three with this real honest-to-goodness home in the snow. Which goes to prove that there are attractions for all tastes at the Pageant and no-one will go away unsatisfied.

NOTES AND COMMENTS

If the "Wets" made as ex-

aggerated statements as the

"Drys" in discussing the li-

quor traffic, they would be

called by an impolite name.

A letter recently appearing

in the Lethbridge Herald

from a "Dry" advocate was

such a mis-statement of fact

that it makes one wonder

where the righteousness is of

these self-appointed Puritans

who try to accomplish by leg-

islation what they cannot ac-

complish by education.

To successfully govern,

there must be obtained the

consent of the governed.

Public opinion is certainly

not ripe for another era of

so-called Prohibition, with

hi-jacking, bootlegging and

contempt for the law that fol-

lows in its train.

A sincere Temperance ad-

vocate is worthy of respect

for his consistency. It is not

so with many Prohibition fa-

natics and extremists.

Marketing of coal is a

problem of as vital impor-

tance to mine-workers as to

operators. There is urgent

need for common action in

this respect, and one has only

to review the figures on coal

imports from the United

States into Manitoba to see

clearly that it is a problem

which requires the earnest

consideration of all who de-

pend on the coal industry.

With a declining demand

for Alberta coal, the vital

need of co-operation is clearly

demonstrated.

British Columbia is work-

ing in the right direction and

is trying to prove that coal

used in pulverized form will

prove more economical than

fuel oil. Coleman people

have only to look at the plant

at Crows Nest Lake, probab-

ly the most modern steam

generating power plant in

Western Canada, to ascer-

tain the efficiency of pulver-

ized fuel.

Never have the streets been

more dangerous than during

the past week. Many have

taken falls in spite of exer-

cising care, and what little

gravel has been spread on the

sidewalks has lessened the

danger. A mild spell on

Friday night followed during

the early morning hours of

Saturday by a freeze-up left

the streets in a worse condi-

tion than at any time during

the winter.

Apparently because some

manual labor and a little hard

work was required to clear

the road from Coleman west

to the power plant, the high-

way officials in charge of the

work gave it up after an at-

tempt last week. The town

and power plant officials be-

tween them arranged for the

opening of the road sufficient-

ly to establish communica-

tion between the two places.

And it was not such a difficult

job.

A return of colder weather

today emphasizes the fact

that winter is still with us,

and that not till the end of

March will we really experi-

ence spring-like weather.

The temperature last night

dropped to ten above zero.

Energy, action, life, are re-

quired in every-day effort.

There is always a day's work

to be done if we look around.

It may not be in our line of

regular occupation, but man

must adapt himself to chang-

ing conditions if he is to suc-

ceed. The laws of Nature

will not permit the great ma-

jority to acquire an easy liv-

ing. Success has to be fought

for step by step, and it comes

only by constant and skill-

fully applied effort.

Big Liquor Profits

On \$46,512 80, the gross amount

of sales in Coleman Liquor Store in

1929, the net profit was \$13 640 68.

If a man were asked to pay such a

margin of profit on anything else

he bought, we can imagine what

he would say. Provincial profits

from all stores amounted to \$2,

661,048. A nice tidy sum—what?

Here and There

(472)

Travelling 180 miles in 55 hours

of actual skiing from Jasper Park

to Lake Louise, five skiers who

will compete at Banff Carnival

have just completed the longest

and most hazardous trip of the

continent. In all, the time taken

was over a week and during the

trip they sometimes slept in the

open in 40 below zero weather and

other times in wardens and old

trappers huts. All came through

in the pink of condition.

Richard Jack, famous English

painter; and Clive Carey, har-

monica interpreter of English folk

songs, recently left Saint John on

board the S.S. Montrose. Mr. Jack

has spent the summer and autumn

in the Canadian Rockies and is

taking to England a large number

of canvases depicting mountain

scenery. Mr. Carey appeared at the

English Musical Festival at

Toronto last November and has

toured the entire Dominion with

the folk dancers, terminating with

a concert at Saint John.

Captain J. Gledien and Captain

G. Stedell, two British officers, are

making a 6,900-mile trip, coming

and going, from London to Que-

bec, via Saint John, to take in the

Frontenac Winter sports at the

Ancient Capital. They will wit-

ness the running of the Interna-

tional Dog Sled Derby and partic-

ipate in ski-ing, skating and to-

bogganing.

In an address upon "Canada's

Natural Resources and their De-

velopment," in Montreal the other

day, G. M. Hutt, development en-

gineer, Canadian Pacific Railway,

pointed out that the value of agri-

cultural products have increased

fourfold in the last twenty years,

while that of mines and forests

have been tripled, fisheries dou-

bled and developed water power

increased six times over.

SCOUT NEWS

Come On Out!

Mr. O. E. S. Whiteside has accepted the office of honorary president of Coleman Boy Scouts, his letter of acceptance being read at the last business meeting.

The Boy Scouts' whist drive held on Monday night was attended by 72 people, and the prizes were won by Mrs. Caroe, Mrs. Nielsen and Mrs. Roughhead (consolation); Mr. Caroe, J. McDonald and Mrs. Nelson (consolation). In each case the highest scores were tied, and the players had to cut to decide the winners.

Already the boys are talking of summer camp, and a committee has been appointed to bring in a report on the most suitable site in the district. The camp will last for at least a week with Harold Turner, assistant scoutmaster, in charge. The patrol leaders are George Snoad and Lorenzo Richards.

On Sunday Scouts Harold Nelson and Wilfred Hoyle piloted the scoutmaster, H. T. Halliwell, to a proposed camp site for the Scouts at Stoney Creek, about six miles north of Coleman. The journey was made on snowshoes, and enabled them to make the trip over the deep snow in good time. A small cabin there was used to have lunch in, a square opening in the roof serving as a chimney, and the place where a door should be serving as a direct draft for the fire.

SCOUT MOVEMENT DESERVES SUPPORT

Public attention has been focussed upon the immense value to the community of the work of the Boy Scouts Association, not alone in this province, but throughout the world, during the sessions of the annual meeting of the Alberta Council a few days ago. The testimony of men and women, prominently associated with the advancement of high ideals and good citizenship in our province, who have been the principal speakers at the conference, can be summed up in the remarks of His Honor Lieut.-Gov. Egbert, who occupies the position of Chief Scout for Alberta, in which he stated that the greatest thing which confronts this province and the whole Dominion, is the making of good citizens of boys. The Boy Scout movement does that, and for that reason has the right of support of every citizen.

Standing second in the Dominion in the total of her Scouts, and first on a per capita basis, Alberta has for the past five years shown a steady increase; the acquisition in numbers being obtained from carrying the Scout programme into the rural communities where the work has done much to bring fresh interests and a keener sense of brotherhood to lads in sparsely settled centres, and particularly amongst those of foreign parentage. It is to these boys that Scouting has been of the utmost value in developing a finer sense of Canadian citizenship. It is not something abstract and new that they cannot understand, but a branch of a world-wide brotherhood well known and appreciated by them in their old old homeland, and they accept its programme as something they can trust, rather than with the natural diffidence of the foreigner for something which is unknown and strange.

During the past year, the huge Jamboree in England, brought together fifty thousand Scouts of every land and tongue in the greatest gathering of youth the world has seen. These, after fraternizing for more than two weeks, were sent out by Lord Baden-Powell to be his ambassadors, carrying the Scout message of universal peace and brotherhood to every corner of the earth.

Letters from friends in the old lands, together with the world-wide press reports of that historic occasion, have brought new desires into the minds of the boys of the province to join the movement. It is not only a responsibility but a privilege of the cities to assist the promotion of the Scout programme in rural districts as well as in the cities themselves.

The whole movement, with a deeply religious code of laws applicable and accepted by the various faiths, its programme of peace and brotherhood,

CHILDREN TAKE IT AND LIKE IT

SCOTT'S EMULSION

COD-LIVER OIL
MADE EASY

WORLD HAPPENINGS BRIEFLY TOLD

During the past six years the foreign population in Paris has increased by more than 200,000, an official report reveals.

In a personal message to Mrs. Larkin, the King expressed the sympathy of Queen Mary and himself for the loss of Hon. P. C. Larkin, Canada's high commissioner.

The Austro-Hungarian Government has established a consulate-general at Ottawa for Canada and Newfoundland, and Dr. Ludwig Heinemann has been appointed to the post.

Farmers in Swedish Lapland have petitioned the government for help against invading reindeer herds belonging to the Nomad Lapps. In many places the peasants' entire winter supplies of hay and grain have been destroyed.

What is believed to be the first flight from Canada to Mexico City, was made by Flight-Lieut. N. C. Ogilvie-Forbes, of the Royal Canadian Air Force, who landed at the southern terminus of the line, after a flight from Montreal on a light aeroplane.

Raymond Poincaré, former French premier, has returned to Paris from southern France, completely recovered from his recent operation, rested and feeling fit. He has been mentioned as a possible minister of finance in a reorganized Tardieu cabinet.

Great Britain's post office accounts for the past year record a profit of nine million pounds sterling. The telephone service shows a surplus of half a million pounds, while the telegraph record a deficit of three quarters of a million pounds.

An appeal that the Dominion Government contribute one-third of the excess cost of relief employment, the remaining two-thirds of such excess being met by the provincial and municipal authorities, was made by Mayor Bert Wemp, of Toronto, to the Hon. Peter Hecnan, Minister of Labor.

A SIMPLE TREATMENT FOR CHILDREN'S COLDS

Cold in the head is very common at this time of the year, especially in the very young. Neglect of a cold is prone to lead to serious consequences. To relieve all congestion of the system is the first step in treating a cold, whether in infants or adults. For the very young, Baby's Own Tablets are the ideal means of doing this. Containing no narcotics or other harmful drugs they soothe the child's fretfulness, relieve its suffering and ensure convalescence.

Baby's Own Tablets are without an equal for relieving indigestion, constipation and colic. They check diarrhoea, break up colds and milder fevers; promote health-giving sleep and make the dreaded teething period easy. The Tablets are the one medicine that a mother can give her little ones with perfect safety as they are guaranteed to be free from injurious drugs. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Game Sanctuary Closed
The Thelon Game Sanctuary, east of Great Slave Lake, consisting of 15,000 square miles, has been closed to both native and white hunters in order to protect the last known herd of Musk oxen, which are said to number around 250, and have their habitat within this area.

Recipes For This Week

(By Betty Barclay)

SWEET CROQUETTES

- 1 cup stale cake crumbs.
- ½ cup chopped, blanched almonds
- or shredded coconut
- Grated rind of ¼ lemon.
- 1 tablespoon lemon juice.
- ½ cup orange juice.
- 1 egg yolk.
- 1 egg white.
- Pinch of salt.

Mix first four ingredients in saucepan, add orange juice, to moisten, and let stand ten minutes. Heat to boiling point; remove from fire; add egg yolk, and cool. Shape as croquettes; dip in egg white, beaten slightly, with one tablespoon cold water; roll in sifted dry bread or cake crumbs, and fry in deep fat. Sprinkle with powdered sugar, and serve with chocolate sauce.

GALANTINE

(Serves 8-10)

- 1 pound round steak.
- 1 pound raw ham.
- 2 eggs.
- 1½ cups bread crumbs.
- ¼ teaspoon nutmeg.
- ¼ teaspoon pepper.
- 1 teaspoon salt.
- Juice of 1 lemon.
- Grated rind of 1 lemon.

Put meat through a food chopper. Add eggs well beaten and remaining ingredients. Pack into a well greased pan, cover with buttered paper and steam for four hours. Serve cold, thinly sliced.

(By Annette Worthington)

3238

Copperhead diagonal lightweight woolen makes this jaunty utility all-day dress so entirely suitable for immediate wear. The hip, waist, neck, and sleeve bands are of plain fall silk crepe in harmonizing shade. Yellow fausse crepe gives lingerie touch at neckline.

Style No. 3238 is designed in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

It's very French, and a dress that you'll only find in exclusive shops, so take this opportunity to copy it for a very small outlay.

It is exquisitely suited to fall's all-crepe and is stunning in dahlia purple shade with just a touch of eggshell crepe at neckline.

In black crepe satin, it's an excellent choice for smart matron. Cut the bands from the dull surface of the crepe to contrasting effect. The neckband may be cut from the dull side or white crepe silk.

Emerald green silk crepe is youthful with self-fabric trim. Pattern price 25 cents. Be sure to fill in size of pattern.

Motor Truck Licenses

Saskatchewan Government in Making New Regulations Has No Desire To Hamper the Farmer

The Saskatchewan Government has decided to place the motor license burden under the jurisdiction of the Minister of Highways, being of the opinion that the administration thereof logically belongs to the Highway Department. It has been further decided that the regulations under the Provincial Secretary. This intention will be implemented at the next session of the Legislature.

The Minister of Highways announced that the Government has reconsidered the regulations relative to motor truck licenses. He points out that by the reduction of the car license fees the revenue of the province will be reduced this year to the extent of approximately \$600,000. The change in the truck license fees was inaugurated with the purpose of assisting in revenue as well as to insure that trucks used for commercial purposes would pay their share for usage of the roads of the province. These new regulations were based on the Ontario regulations, being on a slightly lower scale throughout than the fees charged in Ontario. The new fees are also lower than those charged in the province of Alberta, and many other provinces and states.

Out of 250 truck licenses already issued this year, 69 were registered at the same fee as formerly, and 181 were issued for a fee exceeding last year's rate by \$2.00 or \$3.00. That is 27 per cent. of the new regulations shows that no increase has taken place and 10 per cent shows an increase of \$3.00 or less. It is also estimated that 50 per cent. of those who own trucks also own private cars licensed at the \$5.00 reduction in car licenses.

It was not the desire of the Saskatchewan Government to in any way hamper the farmer in the use of trucks by increasing license fees materially, in view of the fact that the Government has been advised by some of the municipalities; however, the Government has investigated and ascertained that approximately 85 per cent. of the trucks owned outside of the cities of the province, namely, 16,000 out of a total registration of 18,600. A large number of these are farm trucks used in the hauling of grain in the fall, and it was thought that by moving the one-half yearly license fee from October 1st, as formerly, to September 1st, as under the new regulations, this would furnish a one-half yearly license fee for a great number of the farmers. Upon further investigation, however, the Government have arrived at the conclusion that this may not meet the situation, and that nothing should be done that will in any way tend to hamper the producer.

It would further appear that the number of trucks used in the cities contribute the provincial license tax, as well as the tax on the tax, and do not proceed beyond the boundaries of the city or make any use of the provincial roads. It is felt that some measure of relief should be granted in that regard and also with regard to the farmers, that as much relief as possible is granted in any of the other provinces or the Dominion, as far as the information at hand shows.

While they are anxious to secure as much revenue as possible for road building purposes, the Saskatchewan Government decided to pass a further order-in-council, the effect of which will be to give a one-half yearly license fee for all truck owners purchasing their licenses after September 1st. And further, that upon any resident of a town or city taking a statutory declaration at the end of the year to the effect that his truck has not proceeded beyond the boundaries of the town or city during the course of the year, the owner will be entitled to a refund of the difference between the amount charged under the new regulations in excess of the regulations formerly in effect, and that upon any bona fide farmer taking a declaration to the effect that his truck has only been used during the year, exclusively for farm purposes, that such farmer will be entitled to a refund of any excess charged under the new regulations over the previous regulations. The minister points out that should a farmer use the truck for other than farm purposes, such as travelling work, he will in most cases, under the new regulations, pay very little, if any more, and should be treated under the commercial classification.

It is the intention of the minister to collect data during the year on the license and to seriously consider issuing a different motor license plate for trucks coming under the above classes for the year 1931, in order to assist in preventing any branches of the regulations.

He has also ascertained that many trucks from outside the boundaries of the province have hitherto been engaged in work in the province, such as graveling without paying any license fee to the province. The minister is considering licensing all trucks coming into the province to do work in competition with the truck owners of the province. The regulations under the motor vehicles act with regard to keeping to the right of the road, speed, etc., particularly with regard to gravel trucks, will be rigorously enforced this year.

New British Dirigible

The new British airship, R-100 will not be flown to Canada until the spring. Whether the giant vessel will be kept in its hangar in the meantime is doubtful. The suggestion is being put forward that she should make a comprehensive tour of Europe, which would enable her crew to gain further experience in the handling of the great vessel.

Rattlesnake serum used in the United States is largely imported from Brazil.

Winter Fair in March

Attractive Prize List Arranged For Annual Event in Regina

Very little change will appear in the prize lists for the Regina Winter Fair, according to announcement made by the Winter Fair officials.

The Saskatchewan Winter Fair will be held on March 25 to 28, in the Regina Stadium and adjoining stables on the Exhibition grounds. An attractive prize list is being offered the exhibitors with over \$12,500 in cash prizes, several silver medals and trophies. In the heavy horse department there are classes for Clydesdales, Percherons and Belgians, with \$1,430, divided \$1,070 for pure breeds, and \$360 for commercial horses, in each class. A class which is attracting much attention is the one for exhibitors of colts or fillies foaled in 1929, \$300 is offered in this class including \$100 from the Clydesdale Horse Association of Canada. The Dominion Government offers \$400 for groups of five commercial heavy draft horses.

In the light horse department there are classes for standard breds, roadsters, saddle horses and R.C.M.P. horses.

For beef cattle, classes are offered for purebred or grade steers and grade heifers or Shortborns. Herefords or Aberdeen-Angus breeding; \$445 is offered in each of the three classes. The Dominion Government offering for beef cattle is for car lots of 15 animals and groups of five with \$1,800 in prizes.

In the boys' and girls' classes for year of 1929 and 1930, the prize amount to \$450.

Last year the poultry show was held by itself in January, but to meet the wishes of the majority of the poultry exhibitors, the show will be combined with the spring show this year. Classes include the principal varieties of utility poultry, turkeys, geese, ducks, pigeons and pet stock. Prizes in the poultry department amount to \$1,700. Entries close on March 15 for both livestock and poultry entries.

Bethoven was only 12 years old when he became organist in a church at Bonn, Germany.

SUNDAY SCHOOL LESSON

FEBRUARY 16

JESUS HEALING AND HELPING

Golden Text: "Himself took our infirmities, and bare our diseases." — Matthew 8:17.

Lesson: Matthew 8:1 to 9:34.
Devotional Reading: Isaiah 53:3-10.

Explanations and Comments

A Paralytic Cured, 9:1-8.—From the eastern side of the Sea of Galilee, where He had cured the demoniac, Jesus, with His disciples, called across to Capernaum, "His own city." Then came four men bearing a palsied man on his bed, which was possibly a mattress, or merely a blanket. As Luke gives the account, they found the way to Jesus blocked, they mounted the outer stairway to the roof, and tore a hole in the roof large enough to allow them to let their burden down before the Master.

"Trust in nothing but in Providence and your own efforts; never separate the two."—Dickens.

Had they not believed that Jesus could cure their friend, they would not have taken all this trouble to get him into Jesus' presence. Jesus said to the faith and said to the sick man, "Son, be of good cheer; thy sins are forgiven."

"Thou man blasphemeth," said some of the scribes to themselves. They accused Jesus of treating God impiously (blaspheming), by claiming power to exercise the Divine prerogative of forgiving sins. Jesus read their thoughts and said to them, "Wherefore think ye evil in your hearts? For which is easier to say, 'Thy sins are forgiven,' or to say, 'Arise and walk?' Both were equally easy to say, but the result of the latter saying was seen for Jesus to prove. That He had the power to forgive sin He could not prove on the spot, but 'Arise and take up thy bed, and go into thy house.' Thus He made, as Zigabenus long ago said, the visible power a testimony to the invisible. And the man arose, and departed to his house.

The mind and body of a paralytic and physical ailment were cause and effect. The power to remove the disease was by the critics regarded as God-given (John 8:2), but the power to forgive the sin, a Divine prerogative alone. In reality the argument of Christ was that, as the accepted connection between sin and disease was that of cause and effect, and probably was so in the case of the paralytic. He who could heal a sin-caused disease, could heal the sin itself."—Carl D. Case.

"A healthy body is good; but a soul in right health is the thing beyond all else to be prayed for; blessedness itself the earth receives from Heaven."—Carlyle.

"To see the palsied man walking was an amazing sight, and the multitude were amazed, and they glorified God for giving such authority unto men."

The Long Talkers
If you think women talk too much you never heard the man who introduces the speaker of the evening.

Normally, temperature drops about one degree every 100 meters increase in altitude.

The city of Prague, in Czechoslovakia, has a pawn shop which lends money on automobiles.

Smallest War Memorial

Record of Workmen in London Block Who Served in War

It is still a moot point as to where in London one encounters the smallest war memorial, writes "Looker On" in the London Daily Chronicle. The smallest I have come across is a glass case on the front of a block of workmen's flats on Albert Embankment, near Vauxhall. It is a simple, home-made affair enshrining only about a score of names of men living in the block who served in the war. With a cross marked against those who fell. All these years—it was apparently started during the war—it has been carefully tended by the tenants; there are always one or two blooms in glass jars in front of it. A humble but faithful tribute of remembrance.

"Snow Boots" in Paris

There is no word for galoshes in French, so Paris has adopted "snow-boots" as the correct term for overshoes for winter sports. There is no other justification than winter sports for galoshes, to the French woman's mind. Only foreign women wear overshoes or rubbers in Paris on wet days. French women stay at home or take a taxicab when it rains. Failing that, they prefer getting their feet wet to covering them with waterproofs.

DO YOU SUFFER FROM CONSTIPATION?

Countless remedies are advertised for constipation. Many relieve for the moment but they are habit-forming and must be continued. Others contain calomel and dangerous mineral drugs, which remain in the system, settle in the joints and cause aches and pains. Some are harsh purgatives which cramp and gripe and leave a depressed after effect. Avoid lubricating oils which only grease the intestines and encourage nature's machinery to become lazy. A purely vegetable laxative such as Carter's Little Liver Pills, gently touches the liver, bile starts to flow, the bowels move gently, the intestines are thoroughly cleansed and constipation passes away. The stomach, liver and bowels are now active and the system enjoys a real tonic effect. All druggists 25c and 75c red pkg.

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

When BABIES are upset

Baby ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhoea—a condition it is always important to check quickly. How would you meet this emergency—tonight? Have you a bottle of Castoria ready? There is nothing that can take the place of this harmless but effective remedy for children; and that acts quite the same, or has quite the same comforting effect on them.

For the protection of your wee one—for your own peace of mind—keep this old, reliable prepara-

tion always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria; the genuine bears Chas. H. Fletcher's signature on the wrapper.

CHAPTER I.—Continued

The presence of the little shop in the front room did not cheapen the old house in Charmian's loving eyes. As a child the contents of the high-boy drawers had fascinated her. Now she regarded them as something that helped to give her grandmother a few comforts. Had any one suggested that they might be better off in a smaller place, she would have been horrified as would Grandma herself. The view from her own window amply repaid her for the care of so large a room. With an unerring sense of beauty she clung tenaciously to the fine pieces of old mahogany with which her great-grandfather had furnished his family mansion, smiling with inward scorn at the gold-leafed and mahogany-furnished parlour of the pride of some of her friends and neighbors.

Grandma, it is true, rather lacked this admiration of the antique. She gazed rapturously at the mail order catalogues from Chicago, and was particularly enamored of an ornate oak hat tree; while Charmian, knowing that there was no possibility of her grandmother making such a rash purchase, smiled indulgently, and let the old lady dream.

"If only the school committee decides to give me Dist. Four!" she sighed a dozen times a day, and planned how every penny she could save should go toward beautifying the old home. Even as it was, tourists (they had such things in Wickfield now), would sometimes stop their automobiles and admire the gilded pineapple above the door, despite the fact that its coat of goldleaf was slowly vanishing before the snow and ice of the New England winters.

Charmian had been thinking of the pineapple this very morning, and wondering what it would cost to gild it, when the doctor sat down upon the steps. As his eyes came back from the syringa bush and met her own, she continued, almost apologetically: "I know it's too big a house for Grandma and me, but—"

"Why not take a boarder?" he broke in. "You've plenty of empty bedrooms, goodness knows."

Charmian was silent for a moment, letting the thought sink in.

"But you see," she began dubiously, "I couldn't manage the meals—"

"Not if I get the school, anyway. As it is, it's a scramble to fix a lunch for Grandma, or was when I went to Normal. If only some one wanted just a room—but there nobody in Wickfield does, or ever has."

The doctor seemed to be lost in thought. Then he looked up at Charmian and smiled. She made a pretty picture, there on the top of the low step ladder. Her old blue linen, though faded with many washings, still did

good work in bringing out the blue of her dark-fringed eyes; and her cheeks were flushed.

"A penny for your thoughts, Doctor," she said.

"They're not the sort I'd prescribe for an innocent-looking miss like you," he answered, "and yet," (a sudden twinkle appearing in his gray eyes), "I think I'll tell them. I was wondering, my dear, why some likely chap hadn't run away with you."

The girl threw back her head and laughed, adding much to the charm of an already charming picture.

"But you see," she at last asserted, "though I mustn't breathe it to the public, there are no likely chaps in Wickfield."

"No?" questioned the doctor, frowning. "What's the matter with George K's boys? Or Jimmy Bennett? J'm's a splendid fellow, or I never knew one; and some one told me (either a little bit or Lizzie Baker), that—well—"

Charmian laughed again. "You surprise me, Doctor Howe—a close-mouthed man like you listening to gossip! But I'll admit that my statement was rather sweeping. Of course George K's boys are splendid; but they're a little bit of a crowd, and they're married anyway. As for Jim, I can't just let him in the light of a young Lochinvar. He'd never dare show up with any one, without first asking permission of his mother."

"And is filial devotion a quality to be scorned?"

"There was mirth in the doctor's eyes, Charmian's face sobered.

"Sometimes," she answered quietly, "sometimes, Doctor Howe, I think it is—when one carries it as far as Jim does. I can't imagine his asking a girl to marry him without first dissecting her with his mother. Do you think any self-respecting woman would stand for that?"

The indignation of these last words brought the doctor's eyes suddenly and disconcertingly to hers.

"So you've been—dissected?" Charmian blushed.

"You know entirely too much," she said severely, "and anyway, I don't see how we reached this subject. We began with boards, and—"

"Wh'ch is what I came for," interrupted the doctor. "You see, Charmian, my dear, I'm getting old."

"Not you!" laughed Charmian, and coming down from the ladder she seated herself beside him on the steps.

"Nothing truer," he went on soberly, "I find it more difficult to be routed out at night than I did once. I feel more tired after a long day's work; but—but I'm not ready to give up yet."

"I should say not!" Charmian responded, slipping a comforting hand into the old man's. "What should we do without you?"

"You'd do very well—probably better than you do now. Old folks are set in their ways, and ways are changing all the time you know. But I need help. I need an assistant—a young, up-to-date assistant."

"He'd starve," Wickfield. We wouldn't have him near us."

"Not even to help me out?" The girl looked up, suddenly serious.

"You really mean it, Doctor?"

"Yes, I mean it. I'm getting tired, Charmian, though I haven't been willing to face the truth. What I stopped here for, my dear, was to ask if you'd take the boy to board."

"The boy? You mean a new doctor?"

He laughed at her startled face.

"Why not? You're young enough and to spare. If you can't manage

his meals he could get them at the Central House, I suppose; but I don't think he'd enjoy living there. Would you?"

Charmian shuddered at the idea, but asked: "What will Grandma say?"

"She'll agree to anything you 'th'k best," smiled the doctor. "I know Grandma! Well, dear child, you think it over. I don't want to put any more burdens on your shoulders; but he'll pay well, and—Look here! He's coming up on Saturday. I'll drop him in casually and let you look him over."

"Oh I shan't need to look him over if you recommend him," she said as they arose. "But of course, he'll want to look at us! If he could get his diners down town I think I could manage the rest. As for Grandma—"

Charmian called the old lady from her window. "What on earth are you two talking about all this time? You tell the doctor to step in a minute before he goes. I want to ask him about my rheumatism."

CHAPTER II

As the doctor went within at Grandma's call, Charmian lifted her little slipper and carried it back to the woodshed where it belonged. She was an orderly soul, but this morning it was only habit that made her pause at the door to see if everything was in its place. Her thoughts were not centered upon woodsheds, staphylococci, or the neat pile of kindlings in the corner. She was thinking of the doctor's confession about getting "tired." What he meant, of course, was getting old. The idea brought a strange, sick feeling to Charmian's heart. "Of course I live in Wickfield without his doctor," she thought. "Of course I'll board him, even if it's a bother. I'll help the doctor, and there's nothing I wouldn't do for Doctor Howe—just nothing."

The girl sank down on the side steps and looked off dreamily at the distant hills—so softly blue that they seemed to her imaginative vision to be wrapped in a chiffon veil. She was thinking, "Of course I'll board him, even if it's a bother. I'll help the doctor, and there's nothing I wouldn't do for Doctor Howe—just nothing."

Her eyes strayed to the orchard where a small rust' table was built beneath a tree. The doctor said built it years ago. How many, many times had he joined her there at her doll tea parties? She mused. What hadn't he done for her, and for all other Wickfield youngsters?

How he loved them—the children! It seemed to Charmian when she grew old enough to learn that that dear friend had lost his best beloved in a cruel accident on what was to have been their wedding eve, that she and the other children of the neighborhood had been to him, in a meaningful way, the babies that might have been his own. In those days his buggy was always full of children. "The more the merrier," he would say, stopping to take in the boys and girls on his way to school. Pandora, his old white mare, seemed of her own accord to "slow up" at sight of any small figure trudging along the road. Pandora was in pasture now, an honored boarder, and except when the snow-drifts were too deep, the doctor travelled in a "flying." His was the first automobile to be seen in Wickfield. Indeed, when he drove for the first time and waved a hand, Grandma Davis had almost fallen from the window in her excitement.

"It doesn't seem quite right," she said to Charmian. "What's the world coming to, I'd like to know? I declare, I wouldn't have thought it if Edward Howe!"

(To Be Continued)

A certain man announced that he was marrying a widow. "I could never be a widow's second husband," his friend said bluntly. The newly engaged man smiled. "Well," he murmured, "I'd much rather be her second than her first."

Fortune-teller: Do you want to know about your future husband? Visitor: No. I want to know something about the past of my present husband for future use.

NERVES WERE BAD
Could Not Sleep
Tired All Day Long

Miss Florence Coulter, Bark Lake, Ont., writes: "I was troubled with my nerves, could not sleep at night, and felt tired all day long."

"A neighbor came in to see me, one morning, and advised me to take

"The first box did me good and after the sixth box I was able to go back to my work."

Don't dose a Child's Cold

CONTINUAL dosing upsets children's delicate stomachs. Vicks is applied externally and therefore cannot disturb the digestion. It acts in two ways:

(1) The body heat releases the ingredients in the form of vapors which are inhaled.

(2) At the same time Vicks "draws out" the soreness like a poultice.

2 ways at once

OVER 21 MILLION JARS USED YEARLY

China's Real Menace

Famine Takes Toll Of Millions Of Lives Every Year

We hear often of China's civil wars, but only occasionally do dispatches come through which tell of the real horror which continually hangs over that troubled country. This is famine. There have always been thousands of people starving in China; there are today. Famine is remorseless and unending, a grim and horrible specter which stalks through the land after every drought, or flood, taking an annual toll of millions of lives. So separate is the mark of food which separates the peasant class of Chinese from hunger that whenever crops fail, the next winter we of the West dare not contemplate its victims on a scale which we of the West dare not contemplate.

Today it is the Provinces of Shansi and Shensi, which are in the grip of famine. In the past twelve months one-third of their population of 6,000,000 has perished of hunger and another 2,000,000. It is believed, will be dead before June. It is impossible to transport supplies into these regions even when they are available, for the peasants have smashed their carts for firewood and eaten their horses and mules. Over an area of 5,000 square miles a doomed people is subsisting on roots and bark, chaff and elm leaves.

On top of all this, the winter has proved more severe than usual, and cold added its horrors to the suffering of the people. An American investigator tells of passing through village after village where only five or ten persons remained alive. The local authorities are helpless and in many instances slowly starving to death themselves.

Civil war affects thousands, but famine affects millions. It is the great problem which from a humanitarian standpoint China is called upon to face. Yet the situation is virtually hopeless. Temporary relief may prolong a few lives, but it can do no permanent good. Not until the country is stabilized with peace and order firmly enforced, a network of modern roads built, vast dams and irrigation works constructed and the peasants taught to utilize every means at their disposal to increase and conserve the crops will there be any chance that famine will be overcome.

In the meantime millions of people are starving and millions more will starve year after year. That is a side of China of which we may hear little, but which is of far larger extent than the China of extra-territoriality and foreign concessions. — New York Evening Post.

Ancient Finger Prints

Were Used Centuries Ago In Orient As Signatures

Finger prints were taken centuries back in China and Japan. They were then used as a means of signing documents, although nowadays they are generally taken as a method of identifying criminals.

A finger print, taken on paper by means of printing ink, from a human finger shows markings peculiar to that person by the lines on the skin. The arrangement of these lines is the same all through life, and no two persons have the same marking.

No Time Lost

An Indianapolis business man, known for rigorous allegiance to his duties, was asked how he found time to go to the movies with his wife almost every week.

"Well, you see, it's this way: I find it doesn't take any more time to go than to hear the whole story of the thing after my wife returns."

Astronomer Says Moon

Moves Earth's Crust

Gravitational Pull Shifts Surface Bits Feet Is Estimated

That the earth's crust actually shifts as a result of the gravitational pull of the moon on the earth was a theory advanced in a paper written by Dr. Harlan T. Stetson, and read before the American Astronomical Society at Harvard College. He is the director of Perkins Observatory at Ohio Wesleyan University.

Dr. Stetson's subject was the study of the variation in latitude with the moon's position. While movement of the earth's crust has long been known to scientists, it was believed to be too slight for measurements. Observations analyzed by Dr. Stetson showed, however, that the change of position may amount to five or six feet or more.

Changes in the position of the moon, Dr. Stetson's paper pointed out, produce a change in the direction of gravity, causing the shift in the earth's crust, and thus the variation of latitude.

Overcome Sleeping Sickness

Medical Science Has Prevented Population Of French Equatorial Africa From Being Wiped Out

Medical science has prevented the population of French equatorial Africa from being wiped out by sleeping sickness, it was declared in an interview by Raphael Antonetti, Governor-General of the colony, who is now in Paris.

Although the birth rate was satisfactory, he explained, the population continued to diminish through disease, which caused more deaths than there were births. This went on until 1921, when the French officials recognized the peril and took energetic action against sleeping sickness and all tropical infections.

Canada's Contribution

Permanent Posts Established In Polar Regions Are Invaluable

Canada is making a notable contribution to Arctic research in the establishment of permanent posts in the Polar regions, said G. P. MacKenzie, of the Canadian Department of the Interior, who led the expedition which sailed on the "Boethia" last year, exploring Arctic regions, in speaking before the Women's Canadian Club in Toronto.

"Unquestionably Canada is making a greater contribution than are the explorers who merely go in and out of the Arctic leaving no permanent establishment behind them," he said.

For Burns and Scalds. — Dr. Thomas' Electric Oil will take the fire out of a burn or scald. It should be at hand in every kitchen so that it may be available at any time. There is no preparation required. Just apply the oil to the burn or scald and the pain will abate and in a short time cease altogether.

The colic dog of Scotland was first named the collic because of his black color.

Many a man's success is due to the fact that he got busy and answered some of his own prayers.

ZAM-BUK

Relieves Injuries & Prevents BLOOD-POISON

"After Baby, Was Weak, Skinny, Gained 22 Lbs."

Infant, Young, died 8, says Mr. Bond. Thousands were 8 to 15 lbs. when 3 weeks. Nervousness, constipation, sleeplessness. This shows the magic. Get Zambuk Food Tablets from druggist today.

Little Helps For This Week

"I am the Lord, I change not." — Malachi III. 6.

Let nothing disturb thee, Nothing afflict thee; All things are passing; God never changes; Patient endurance Attaineth to all things; Who God possesseth. In nothing is wanting; Alone God sufficeth. — Santa Teresa's Bookmark.

Life passes, riches fly away, popularity is fickle, the senses decay, the world changes, friends die. One alone is constant; One alone is true to us; One alone can be true; One alone can be all things to us; One alone can supply our needs; One alone can train us up to our full perfection; One alone can give a meaning to our complex and intricate nature; One alone can give us time and harmony; One alone can form and possess us. Are we allowed to put ourselves under His guidance? This surely is the only question. — John Henry Newman.

Persian Balm is irresistibly appealing to all women who appreciate charm and elegance. Its use keeps the complexion always clear and beautiful. Tonic in effect. Stimulates the skin and makes it wonderfully soft-textured. Softens and whitens the hands. Persian Balm is equally valuable to men as an excellent hair fixative and cooling shaving lotion. Splendid also to protect the tender skin of the child.

Business Is Business

Diplomacy Used By Jewish Scholar To Win Prize

There was a Scotsman who was appointed inspector of schools, and who in the course of his work had to examine a Jewish school. He asked a class of boys who in their opinion was the greatest man the world had ever produced. After a pause a little Jewish scholar put up his hand, and declared that the greatest man was Robert Burns. This reply gained him the prize that was offered. After the examination the inspector asked the lad if he really thought Robert Burns was the greatest man, to which the reply came: "Burns was the greatest man, but business is business."

A basket social and dance is to be held in the Polish hall on Mon., Mar. 3rd, for which tickets are being sold at \$1.25 for lady and gent.

A grand recital is to be given by Mrs. Sali's pupils in the K. of P. hall Feb. 21 at 8 p.m., followed by a dance for which the admission is 50c. Lunch will be served and a door prize given.

Frank Celli went to Creston on Saturday to attend the funeral of an old friend who was accidentally killed. From there he went on to spend two weeks visiting his daughter in Vancouver, Mrs. F. Marini, and his youngest son who is attending school.

J. L. Lonsbury spent a few days at his home here during the week, and returned to Shalgnessy on Monday night, where he has been working for the winter months. He is uncertain if he will remain there.

Mrs. Profio left on Monday night for Windsor or Detroit, where it is reported the family will live. Mr. Profio left some weeks ago. He followed the occupation of shoe repairer for many years in the past towns.

Coleman junior hockey team played at Pincher Creek last evening, the result being 4-1 in favor of Pincher.

Mrs. J. Emmerson spent a few days this week visiting Mrs. C. Emmerson at Bellevue.

Prizes were won by the following at the K. of P. whist drive on Saturday: Mrs. Ed. Ledieu, Mrs. R. Morris, L. Caroe and Joe Jasbee.

Lois Thomas entertained a number of friends at her home on Monday, it being her seventeenth birthday. Among other games, whist was played, the prizes going to Helen Cornett, Jean McDonald and Marjorie McLeod.

Mrs. G. Endenning, of Coleman, Grand Chief of the Pythian Sisters of Alberta, paid an official visit to Crescent Temple, Drumheller, this week. While here she is the guest of Mrs. J. Thompson — Drumheller Mail.

Burns Cup Games Saturday

Curlers from Blairmore it is reported will compete with Coleman rinks on Saturday night in an effort to take the Burns Cup to their town. Coleman won it from Blair more last year. Coleman's rinks will be Ed. Ledieu, (skip) J. Bell, J. Yates, A. N. Other, and Sam Moores, (skip) J. Houghton, T. Holstead, W. Lees.

S. A. DIVISIONAL OFFICER HERE

Staff Captain A. L. Steele, O.B.E., Divisional Commander for the Salvation Army's forces in Alberta, paid a visit to the local corps last Wednesday, Feb. 5th. An inspection of the work of the local corps was held and conditions were discussed by the staff captain and the officers of Coleman. At night the staff captain conducted a public meeting which was attended by a goodly number of citizens, who enjoyed the forceful message by the visiting officer.
